**PETITION FOR RULE MAKING**

Flambeau Broadcasting Co. ("Flambeau") hereby respectfully submits the instant Petition for Rule Making to amend the Commission's FM Table of Allotments to add Channel 260C3 at Cornell, Wisconsin as its first FM allotment and first local transmission service. In support whereof, the following is shown:

1. Flambeau Broadcasting Co. is in the business of building and operating radio stations and desires to provide a first local service to Cornell and the surrounding area.
2. As demonstrated in the Engineering Exhibit attached hereto, the instant Petition proposal is in full compliance with the FCC rules at 47 CFR 73.207 and the proposed allocation can be made without affecting the allocation of any other station.
3. Cornell, Wisconsin has its own economic base, stores, local government, post office, etc. and qualifies as a community for allocation purposes. The 1990 population was 1541.
4. The proposed reference point is 45° 16' 48"N - 91° 12' 57"W. This reference point is in full compliance with 47 CFR 73.207 and other requirements.

MMB

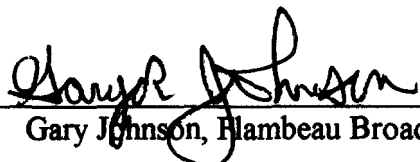

5. Since the proposed allocation would provide Cornell with its first local transmission service, and contribute to the fair and efficient distribution of FM allocations, the instant proposal would be in the public interest. Flambeau will immediately file the required FCC form 301 for authority to construct the Channel 260C3 facility upon grant of this Petition.

WHEREFORE, the foregoing considered, Flambeau respectfully requests that the Commission GRANT the instant petition, and AMEND the FM Table of Allotments as shown below.

**ENGINEERING EXHIBIT FOR  
FLAMBEAU BROADCASTING CO.  
CORNELL, WISCONSIN**

This engineering exhibit was prepared in support of a Petition for Rulemaking being filed by Flambeau Broadcasting Company ("Flambeau") to amend 47 CFR 73.202(b) as follows:

Flambeau proposes that channel 260C3 be allocated to Cornell, Wisconsin as its first FM commercial broadcast service and first local transmission service. Flambeau will file FCC form 301 for authority to construct on the channel when allocated.

The proposed channel allocation can be made in full compliance with FCC rules from a reference point approximately 12 kilometers northwest from the center of Cornell. This site was chosen since it is high ground and there are other towers in the area. The NAD 27 geographic coordinates of this point are:

**45° 16' 48"N - 91° 12' 57"W**

The attached tabulations illustrate the spacings for the 260C3 allocation at Cornell, showing full compliance with the relevant provisions of 47 CFR 73.207.

<b><u>Community of License</u></b>	<b><u>Present</u></b>	<b><u>Proposed</u></b>
Cornell, Wisconsin	(none)	260 C3

**Mueller Broadcast Design**

613 S. LaGrange Rd  
LaGrange, IL 60525

It is respectfully submitted that the allotment of channel 260C3 as outlined herein is in the public interest and will result in a fair and efficient distribution of allocations, provide Cornell, Wisconsin and the surrounding area with its first FM commercial broadcast service, thus expanding broadcast service to the public.

This engineering exhibit was prepared by me and is true and correct to the best of my knowledge and belief.
